PRODUCT DATA

PRICE DESIGN FORMULA MASONRY CLEANER

PRODUCT NAME: PRICE DESIGN FORMULA MASONRY CLEANER
MANUFACTURER: PRICE RESEARCH, LTD.
 3511 Stadium Drive
 Kansas City, MO, USA 64129
 Phone: (816) 924-5955

PRODUCT DESCRIPTION

Basic Use

PRICE DESIGN FORMULA MASONRY CLEANER is specially formulated to remove excess mortar, job dirt, concrete splashes, concrete smears, efflorescence, rust, etc. from textured masonry surface.

Features

- Improved color
- Concentrated cleaner
- General purpose
- May be used to expose aggregate

Excellent For

1. Colored Concrete Blocks
2. Split Face Blocks
3. Ribbed Blocks
4. Brick Masonry
5. Concrete - Vertical and Horizontal

Advantages

- Enhances color in concrete and blocks.
- Removes efflorescence, mud and stains.
- Designed to be used with pressure water rinsing.
- Prepares masonry surface for water repellent application.

Composition

PRICE DESIGN FORMULA MASONRY CLEANER is a unique blend of inhibitor, chelating agent, reaction controller, color enhancer with organic and inorganic blends of acids.

Limitations

PRICE DESIGN FORMULA MASONRY CLEANER is an acidic product and should be handled according to label instructions. Protect and test all non-masonry surfaces, including vegetation. Do not use on polished or burnished surfaces. Product may not correct damage done by improper cleaning.

 Flash point None

Continued on back

APPLICATION: TEST FIRST

<u>Surface</u>	<u>Design Formula Masonry Cleaner</u> (part by vol.)	<u>Water</u> (part by vol.)
Blocks: Smooth	1	6
(Any Color) Split Faced	1	6
Ribbed	1	6
Brick	1	6
Tile	1	6
Pavers	1	6
Cast in Place	1	6
Brick Masonry	1	6

COVERAGE:

Coverage will average 300 - 400 sq.ft. per gallon.

APPLICATION: TEST FIRST

TEST and protect all non-masonry surfaces. Use recommended dilution of cleaning material after testing for economy and best results.

1. Pre-wet thoroughly the surface to be cleaned.
2. Apply diluted solution of cleaner with brush or low pressure spray (use lower than 40 psi).
3. Let set for 2 to 3 minutes. Scrape off excess mortar.
4. Reapply diluted solution. Rinse thoroughly. For pressure rinse use 400 to 500 psi pressure with 4 to 6 gallon output per minute, with 15° to 40° fan spray tip.

CAUTION

1. Multiple application may etch surface.
2. Clean masonry before the installation of light fixture, doors, hardware and bathroom plumbing.
3. For cleaning interior surfaces, protect the floor and provide adequate ventilation.
